GOALS // The overarching goal of Child360's two-year study was to explore the viability and cost-effectiveness of online coaching via TORSH Talent in order to address four organizational goals:

Increase Reach

Expand access to coaching supports, including access for geographically hard-to-reach programs

More Affordable

Determine if adoption of an online platform results in measurable cost savings to coaching providers

Increase Coaching Dosage

Increase the amount of coaching time that was available to the teachers supported by Child360

Maintain Quality

Provide teachers with a high-quality coaching experience while retaining the core principles of their in-person model

RESULTS // The relative costs of online coaching per classroom compared to the costs of an in-person or blended coaching model are shown below. Calculations included software & equipment costs.

↓ 20%

Reduction in
Coaching Time

↓ 68%

Reduction in
Drive Time

↓ 22%

Reduction in
Total Cost

FEEDBACK // Participating coaches and teachers provided additional feedback about their experience along with unexpected benefits of the online program.

**COACH
SAYS...**

"The video conferencing process really showed me that relationships could be built just like face-to-face! I look forward to using it more consistently."

**TEACHER
SAYS...**

"Whenever I have a question or need suggestions, I can email my coach and get an answer quickly. I am very happy to receive coaching both ways."
